Directions For Use

1. Dilute 2-4oz of Tuff-Shine per gallon of warm water into mop bucket or automatic scrubber
2. Mop onto floor or apply through automatic scrubber
3. After floor has dried, you may buff floor with a high speed machine and a soft pad in order to achieve a higher gloss.

Note: Tuff-Shine can be applied undiluted with multiple coats for increased shine. Allow approximately 20 minutes of dry time between coats. For increased shine buff the clean Tuff-Shine coated floor with a soft pad.

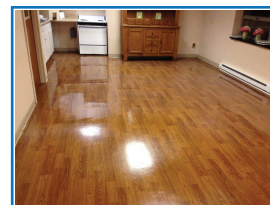

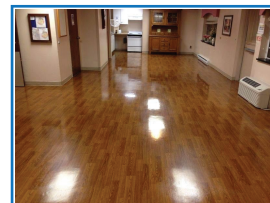

"We have been using Tuff Shine on our no-waxed floors for a few months. We have found this product very easy to use and incorporate into our daily routine. I believe using this product makes it easier to maintain the floors. We have been able to reduce the frequency of heavy scrubbing to remove soil build up. Plus, Tuff Shine also leaves a nice gloss on the floors. We are very pleased with the results your product has delivered. We do plan on the continued incorporation of Tuff Shine into our floor care program."
